Stephen Cole Kleene

Born 1909, Hartford, Conn.; logician and linguist, most remembered for his introduction of “Kleene closure” a mechanism for describing the repetition of phrases in a regular language.

Education: Amherst College, 1930; PhD, Princeton University, 1930.

Honors and Awards: member, National Academy of Sciences, 1969.

QUOTATION

“Logic has the important function of saying what follows from what.”
