Recently Published History of Computing Literature

Compiled by Jeffrey R. Yost, Charles Babbage Institute, University of Minnesota

This select bibliography includes major scholarly (books, journal articles, dissertations, and theses) and popular works (books and magazine articles) of computer, software, and networking history. This is the first in a semi-annual series. It contains works from 2010 and the first half of 2011.

Green, Thomas J. Bright Boys. (A.K. Peters, Ltd., 2010).
